

Parker Industrial Hose Jackhammer Hose Assemblies

Spring 2013 Promotion

Parker Jackhammer hose assemblies are high-quality **“Made in U.S.A.”** products with a 4:1 Design Factor and up to 300 psi working pressure. Why purchase an imported product when Parker quality is available at a competitive price?

- EPDM tube and cover with multiple textile plies of reinforcement
- Red or yellow hose assemblies
- 200 and 300 psi assemblies
- Crimped universal type couplings on each end

Part Number	Description	Color	Working Pressure	Min. Bend Radius
7081JHE75-600B	50 ft. length, 3/4" I.D., coupled with crimped universal type couplings each end	Red	200 psi	6 in.
7082JHP75-600B	50 ft. length, 3/4" I.D., coupled with crimped universal type couplings each end	Red	300 psi	6 in.
7083JHP75-600B	50 ft. length, 3/4" I.D., coupled with crimped universal type couplings each end	Yellow	300 psi	6 in.
