

Automation & Controls Product Offerings

Your Partner for Trusted Solutions

SICK

Technology leader in safety, factory automation, and process automation

BALLUFF

sensors worldwide

Proximity, photoelectric and mechanical limit switches, linear position transducers, identification systems

WAGO

INNOVATIVE CONNECTIONS

Electrical interconnections and decentralized automation technology

FE Fuji Electric Group

Information control systems, substations, factory automation, and electronic devices

MURR

ELEKTRONIK

Your partner from the switch board... via the interface... passive or active, in the field

Tolomatic

EXCELLENCE IN MOTION®

Rodless and rod type servo electric actuators

80/20

The Industrial Erector Set®

T-Slot aluminum extrusion and fastening hardware

EXOR

Marquee and HMI solutions

COGNEX

The world's leading provider of vision systems, vision software, vision sensors and industrial identification systems used in manufacturing automation

EUCHNER

Safety interlocks and safety mats for industrial applications

YAMAHA

ROBOTICS

Electrical actuators and robotic systems

phd

SOLUTIONS FOR INDUSTRIAL AUTOMATION

Specialized electro-mechanical solutions in weld cell and assembly operations

HARTING

Electronic and optical connection, transmission, networking and software creation

IMS™ INTELLIGENT MOTION SYSTEMS, INC.

Excellence in Motion™

High performance motors, drives and controllers that are small, powerful and inexpensive

HAMMOND MANUFACTURING™ ENCLOSURES

A full line of electronic racks, small enclosures, full size electrical enclosures, and power bars
