## Twinhammer™ Bonded Air/Water Jackhammer Hose Assemblies

Parker Series 7084 Twinhammer Hose is the FIRST factory-assembled dual hose system! This hose is designed with dual air and water lines to be an ideal solution for silica dust suppression in pneumatic jackhammer applications. This hose is user-friendly and easy to install. The blue and red hose make it easy for users to identify the hose for air service (red) from the hose for water spray (blue).

**NOW STOCKED AT YOUR LOCAL PARKERSTORE!**

**The New Hose Assembly Simultaneously:**

- Transfers air to power heavy duty pneumatic jackhammers/breakers
- Transfers water to suppress silica dust produced by tool operation
- Helps create a safer and more efficient work environment

*These hoses can also help customers comply with safety standards designated by:*
